

# CEROIL KIT ECONOMIZER

## Injector cleaner + Anti-friction treatment

It is a combination of two products: Ceroil Platinum and Ceroil Inyetsol + that provides a comprehensive treatment of the engine, improving lubrication and combustion.

### CEROIL PLATINUM: ANTI-FRICTION TREATMENT ENGINE / TRANSMISSION

Concentration of microceramic particles that form a dispersion in the lubricating oil and remain adhered to the metal, creating a thin film of diamond hardness and extremely slippery, achieving an anti-friction effect that improves performance, reduces consumption and prolongs the life of the engine

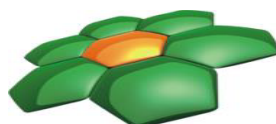

### INYETSOL+ : INJECTOR TREATMENT

With a new formula, INYETSOL+ becomes the most complete fuel additive on the market. It is a product that offers the features of four products in just one.

INYETSOL+ is a high-speed cleaner with the latest technology. Removes any dirt that dogs the fuel lines and prevents the proper functioning of the injectors. It is also an excellent treatment for fuel deposits that already eliminates water, fungi and bacteria.
