

CEROYL FAT MP 2.5

White lithium grease

Revision Date: 14/03/2022

Page 1 de 1

PRODUCT

Multifunctional lithium grease with high thermal stability and multiple applications.

USEFULNESS

For all types of use such as ball bearings, rollers, bearings, guides, open gears, frames, valve wrenches, shafts and mechanical seals for water pumps, injection molds, etc.

ADVANTAGES

- Reduces friction and prevents wear.
- Reduces thermal degradation.
- From -30°C to +160°C
- Reduces noise (metal on metal).
- Reduces metal adhesion due to temperature, humidity or rust.
- Does not damage rubber, rubber or plastic materials.

APP@CAT=ON

- Shake before use.
- Spray the foot to be treated and wait a few seconds.
- Carefully impress the treated parts.
- Reapply the product for proper lubrication.

Available in:

Reference	Capacity
C00008EIS	400 ml.
C00004HIG	1 Kg.
C00004JIG	5 Kg.
