

## TECHNICAL DATA

### CEROIL PLUG LEAKS POWER STEERING

Regenerates joints and eliminates leaks

## PRODUCT

Oil-soluble additive that regenerates hardened joints, plugs small cracks, eliminates and prevents small oil leaks from the power steering circuit.

## USE: ULNESS

Compatible with all oils used in power steering systems or automatic gearboxes that meet DEXRON specifications or equivalent, and LHM.

## AVANTAGES

Restores the elasticity of rubber or neoprene gaskets.

Prevents and plugs leaks without disassembly.

Does not alter the quality or viscosity of the oil.

Ensures proper operation and reduces power steering noises.

Detergents and dispersing agents clean and protect the system.

Prevents aging and oxidation of power steering oil.

Prolongs the time of use of mechanical organs

Reference	Capacity	Uds. 60l
C00087CNA	100 ml.	8

## APPLICATION

Add the additive directly to the power steering tank.

## DOSAGE

A dose of 100 ml. is enough for up to 80L. of oil.
