

## CEROIL STOP LEAK RADIATOR EXPRESS

Repair small leaks and prevent.

Fecha de revisión: 15/03/2022

Página 1 de 1

### PRODUCT

It is an additive for cooling water that repairs small leaks in the cooling circuit and protects against oxidation and corrosion. Aluminum containers.

### UTILITY

For all types of radiators and heating systems.

### ADVANTAGES

- Cleans the radiator system removing limescale, oxides and residues.
- Seals small leaks in the refrigeration circuit.
- Does not attack rubber, rubber or joints.
- Low pour point. Excellent heat transfer.
- Excellent protection against corrosion.
- Reduces maintenance costs.

### APPLICATION

- Start the engine with the heating on.
- Pour the product into the radiator (not into the expansion tank).
- Let the engine warm up for at least 10 minutes.
- Check the cooling water level and top up if necessary..

### DOSE

A dose of 500 ml. is enough for 12 liters of coolant.

Reference	Capacity	Unt. Box
C00021FIS	500 ml.	12
C00021HIS	1 L.	12
C00021JIS	5 L.	4
