

CEROIL ULTRA CLEANER

Biodegradable degreaser

PRODUCT

Multifunctional industrial degreaser for parts cleaning and ultrasonic machines.

ADVANTAGES

It is an active degreaser based on polyalcohol solvents and anticorrosive inhibitors, especially for the removal of grease and all types of persistent dirt. Does not contain NaOH (soda). Due to its great cleaning power, it eliminates the most embedded greases and dirt without the need for mechanical efforts or aggressive products.

FEATURES

- Appearance: Transparent liquid
- Color: Blue
- Odor: Alcoholic
- Density at 20°C: 1.04 gr/cc +/- 0.05
- pH 100%: 10-11,5
- Flash point: Non-flammable

QUALITATIVE COMPOSITION

- Nonionic surfactants
- Anionic surfactants
- Anticorrosives
- Phosphates
- Sequestrants
- Biodegradable solvents

HOW TO USE AND DOSAGE

Applicable to the cleaning of any type of surface, which is not damaged by water. Especially useful for mechanical parts, industrial machinery, circuit cleaning and drilling tanks, etc. It should not be used for cleaning dark windows. The dosage depends on each particular case. For very strong dirt up to a ratio of 1:5 in water. For light dirt should be diluted from 1:20 to 1:40. For metal cleaning 1:1.
